

Weather Message Switching Center Replacement (WMSCR)

LEAD AGENCY/POINT OF CONTACT: Federal Aviation Administration (FAA)/Michael Greco, FAA, AOS-540 (609) 485-5145

TRAINING POINT OF CONTACT: No identified need except for maintenance technicians and operators.

PROGRAM/PROJECT DESCRIPTION: This is an effort to sustain the current capabilities of the FAA weather switch which receives, processes and stores alphanumeric aviation weather products and disseminates these products to FAA and non-FAA users. This program is transparent to operational weather users and providers and therefore **no formal training** is provided to them.
